

Black Spruce, Amyris, and Elemi

Description

default watermark

Here at Rose & Remedy we love this spray and use it everyday, morning and night on our face and skin both as an aromatherapy and as a part of our skin care routine.

Black Spruce essential oil clears your breathing and gives you a sense of inhaling crisp, fresh air. It also promotes relaxation and maintains the appearance of healthy looking skin.
Amyris essential oil with its refreshing aroma, lifts away stress and anxiety and is a natural aphrodisiac.
Elemi, with its strong pine and citrus aroma offers a strong, crisp scent while supporting healthy, youthful looking skin. It rejuvenates sun damaged, aging skin and brightens and evens complexion while helping to tone and firm skin.

Shake well and spray onto face and/or body after cleansing and before moisturizing. Take a few deep breaths and really enjoy this experience of boosting your skin and daily routine.
