

Facial Oil

Description

default watermark

add an essential oil to your face oil for an all around feel good lift with added herbal benefits

Bai Zi Ren (Chinese evergreen) can also be used topically to promote clear skin, restore radiance, and repel insects. When inhaled, Chinese evergreen can help calm and uplift so that you feel as rooted as the sturdy trees that produce this essential oil. Bai Zi Ren activates your pineal gland which produces melatonin. Melatonin affects the modulation of sleep patterns in both seasonal and circadian rhythms. Adding Bai Zi Ren to your face oil gives an all around added pleasure to your skin care routine. Indulge.
